Subject: Microsoft Settlement

Dear Sir:

Speaking as a member of "The Public", as in "The Public Interest", it is my opinion that Microsoft has done far more for the Public Interest than against it. For what transgressions they may have had, I believe the presently agreed upon settlement is more than just compensation, and that Microsoft has been duly punished. Therefore, I strongly recommend that the case be closed, now, without further hearings. Further hearings would become harassment of Microsoft, and would not be in the Public Interest

Sincerely,

(signed)
